

Download How To Use A Krups Espresso Maker

Make the espresso. This is quite a bit like brewing coffee and you can simply set the machine and let it brew. Generally, this involves heating the water and forcing it through the coffee grounds. The Krups Home Espresso Machine comes in several varieties, but each is designed to automatically brew and serve a cup of espresso coffee. Krups is a company based in Germany, founded by Robert Krups. How to Froth and Steam Milk for Latte Art, Cappuccino and More - Duration: 9:11.
